

VAN RODOLF M. SULIVA

vrm.suliva.online | 0976 213 7709 | vansuliva4@gmail.com

PROFESSIONAL SUMMARY

Software developer and Magna Cum Laude BS Information Technology graduate with experience building web, mobile, GIS, IoT, and AI-assisted applications. Skilled in Laravel, React, React Native, Python frameworks, SQL databases, REST APIs, Docker, and cloud deployment, with recognition for an award-winning public transport technology platform.

TECHNICAL SKILLS

Languages: PHP, Python, Java, JavaScript

Frameworks: Laravel, React, React Native, Flask, Django REST Framework, Spring Boot, Node.js

Databases: MySQL, PostgreSQL, SQLite, MongoDB

Tools and Technologies: Git, GitHub, Linux, Docker, Google Cloud Run, REST APIs, OpenAI API, Google Gemini API, Google Maps, Leaflet, Arduino, Raspberry Pi

EXPERIENCE

Software Developer Intern

Municipal Agriculture Office | Ramos, Tarlac | February 2026 - May 2026

- Developed a custom agriculture management system covering farmer profiles, rice seed distribution, cooperative records, farm locations, monitoring, and report generation.
- Integrated Google Maps Platform for land plotting and farm-location visualization, improving record tracking and municipal reporting workflows.
- Collaborated with office personnel to translate operational requirements into maintainable system modules and user-friendly processes.

Freelance Software Developer

Self-Employed | 2024 - Present

- Develop web and mobile applications for clients across requirements gathering, UI/UX planning, development, testing, deployment, maintenance, and documentation.
- Build and maintain solutions using Laravel, React, React Native, Flask, MySQL, PostgreSQL, REST APIs, and cloud deployment tools.

EDUCATION & ACHIEVEMENTS

Master in Information Technology

Tarlac State University | Expected Start: August 2026

Bachelor of Science in Information Technology - Network and Administration

Tarlac State University | August 2022 - July 2026

- Magna Cum Laude
- Best Capstone Project, 2026 - PGT Onboard
- 3rd Place, Saliksiklaban University-wide Undergraduate Research Competition, STEM Category, 2026 - Digital Transformation of Public Transport: Vehicle Tracking and Electronic Payment Solutions (PGT Onboard)

SELECTED PROJECTS

PGT Onboard - Public Transport Tracking and Electronic Payment System

- Built an award-winning mobile and IoT public transport platform with GPS tracking, electronic ticketing, payments, passenger counting, and a cloud-deployed backend.

AmoraCare - AI-Assisted Adoption Management Platform

- Developed a role-based adoption management platform with case tracking, document verification, AI-assisted legal guidance, reporting, privacy controls, and matching recommendations.

Garden of Peace - GIS Cemetery Mapping and Tracking System

- Created a GIS cemetery system with digital grave mapping, QR-enabled records, plot management, and shortest-path navigation using Dijkstra's algorithm.

FitQuest - Gamified Fitness Application with Motion Tracking

- Built a mobile fitness application with pose estimation, exercise and progress tracking, adaptive rewards, leaderboards, and AI-generated coaching feedback.

CERTIFICATIONS & LEADERSHIP

Cisco Networking Academy | 2024–2025

Junior Cybersecurity Analyst Career Path; Cyber Threat Management; CCNA: Introduction to Networks; CCNA: Switching, Routing and Wireless Essentials; CCNA: Enterprise Networking, Security and Automation

Youth Leader, Deep & Wide PH | Paniqui, Tarlac | 2024–Present
